

GSXR Nitrous Bottle Mounting Brackets

- 1) Un-screw the passenger foot peg screws.
- 2) Install the aluminum spacers behind the bracket and in between the foot peg bracket.
- 3) Use the new longer provided screws and re-install the whole assembly. Using a thread locker is recommended on the 4 longer foot peg bolts. Re-tighten after your first few rides.
- 4) Screw the nitrous bottle brackets onto the foot pegs. Use the 5mm screws and washers provided. Re-tighten after your first few rides.
